

# Oxford Computer Consultants

Original, robust and flexible IT solutions

## Software Developer

**Company:** Oxford Computer Consultants Ltd  
**Status:** Permanent full-time position  
**Hours of work:** 37.5 hours per week

We are looking for a bright graduate with a minimum 2:1 degree in a relevant subject, 1+ year's experience in software development and with a reasonable selection of the following technologies: C#, VB.NET, C++, XML, XSLT, SQL Server, Access and ASP- based web development. Experience with .NET and advanced Web-based applications preferred; experience of developing SharePoint and CRM applications desirable.

Strong communication and interpersonal skills are essential since successful candidates will be working directly with clients. Candidates must be interested in seeing through the complete life cycle of a project from specification and design to implementation.

Successful candidates will have a minimum 2:1 degree in a relevant subject and be able to demonstrate an aptitude for designing and developing Microsoft Windows applications.

The scope of the work you will be involved with:

- exciting projects for outside clients
- products for central or local government
- solutions for innovative SMEs or global companies
- part of a team devising specification requirements and implementation plan

Some of the key benefits of being part of OCC:

- working with cutting edge technology, developing your skills in these and related technologies, particularly in our research projects
- opportunity to be involved in highly innovative research and development
- be at the forefront of fascinating technological developments
- company bicycle scheme

We work in information technology because we enjoy the challenges and we see the positive impact IT has on business and society.

If you are

- (1) an exceptional, experienced developer or
- (2) a bright graduate with a demonstrable enthusiasm to learn,

please send your CV with covering letter and salary expectation to
